THE LYFA-TRADE MARK  
THE SUN-SHIP

*Some information regarding stone carvings  
and the LYFA-Trade Mark.*

The LYFA-Trade Mark is a stone carving from the Late Bronze Age, symbolizing the sun.

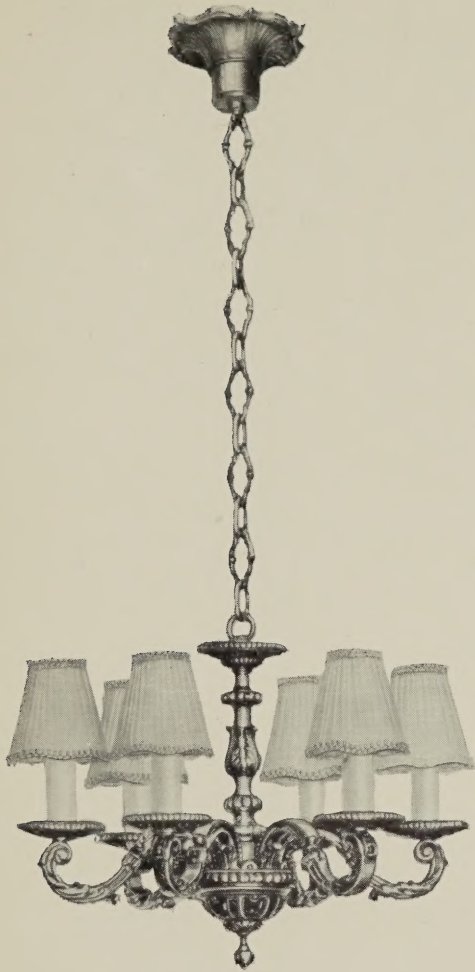

The initials LYFA symbolize light and we have consequently chosen this old Scandinavian symbol as our trade mark. Such carvings originate from the Late Bronze Age (900—400 B. C.). The motives of these carvings are numerous, but again and again appears the sun disc and in most cases in connection with a ship to symbolize the sun on its way across the heavens.

On flat rocks in Southern Sweden and on the island of Bornholm (Denmark), as well as on »erratic« boulders in East Denmark, there are carved pictures from the Late Bronze Age. Without doubt they may be regarded as the magic images of an agricultural people, used in the service of the fertility cult. In June 1944 a stone with carvings showing the sun-ship was discovered by a farmer in Northern Jutland (Denmark). The original stone is in the farmer's possession, but two castings were made, one of which is exhibited at the National Museum of Copenhagen and the other is exhibited at the head offices of LYFA.

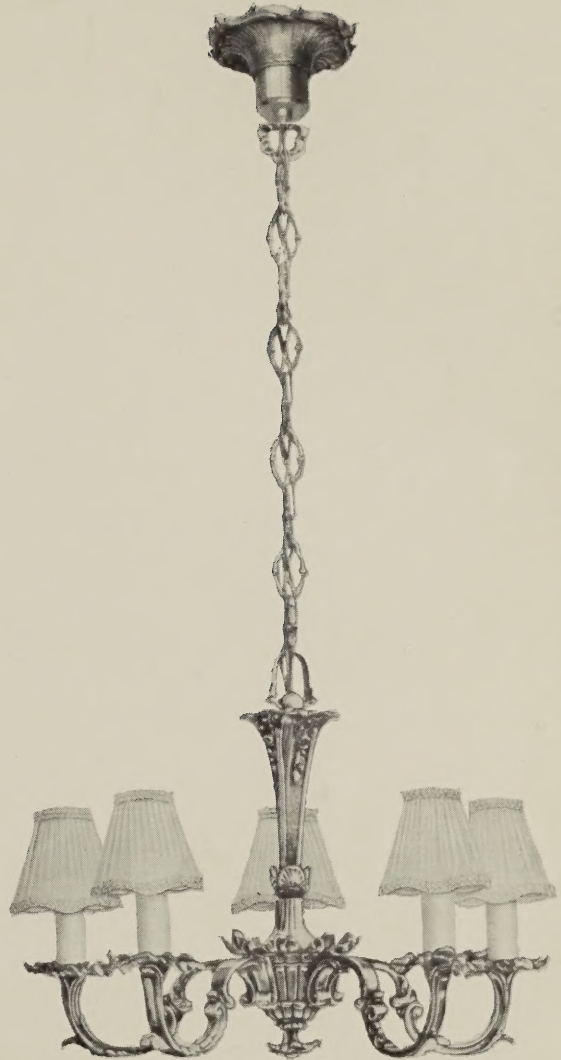

The Nysum-Stone with carvings,  
discovered 24th June, 1944.
